

COOKIE POLICY

1. DEFINITIONS AND CHARACTERISTICS OF COOKIES

Cookies and similar technologies are information that sites and apps send or read on your devices at the first visit, to be then retransmitted to the same sites and apps at the next visit. Thanks to these technologies, sites and apps remember actions and preferences (such as, for example, login data, the chosen language, font size, other display settings, etc.) so that they do not have to be indicated again. when at the next visit.

These technologies are used to perform computer authentication, session monitoring and storage of information regarding the activities of users who access a service and may also contain a unique identification code that allows you to keep track of the user's navigation within the site for statistical or advertising purposes.

There are in fact different types of cookies which, depending on their characteristics and functions, may persist on your device for different periods of time: the so-called session cookies, which are automatically deleted when you close the browser; and so-called persistent cookies, which remain on your device up to a preset time.

In line with the Applicable Law, your prior consent for the use of cookies is not always required. In particular, this consent is not required for "technical cookies", eg. those used for the sole purpose of carrying a communication through an electronic communications network, or strictly necessary to provide a service expressly requested by the user. In other words, cookies that are essential for the operation of a site.

Your prior consent is instead required for non-anonymized "analytical" cookies and for profiling cookies, eg. those that provide statistical analysis on the use of a website or that create user profiles to send them advertising messages in line with the preferences they have expressed while browsing.
